Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 April 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☐ Claim(s) 1-16 and 18-23 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10, 16, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent 5,123,917 Lee.

In regards to claims 1-10, 16, and 17, Lee discloses the same invention comprising an elastic member (20) and an integral stent-anchoring member (30) that is sized and shaped so as to fit inside a body lumen. Lee teaches that the stent (30) may be disclosed on either the inside or outside of the membrane member in column 7 lines 43 through 50.

Claims 5, 6, 8, 16, and 17 are being treated as intended use, furthermore the device of Lee is inherently capable of being positioned upon and secured to the outside of a body lumen.

Response to Arguments

Applicant's arguments filed 4/24/06 have been fully considered but they are not persuasive. The applicant argues that Lee fails to disclose that his device is capable of absorbing fluid pressure comprising an elastic member that provides a dampening response. However the examiner is not giving weight to the preamble because it

Art Unit: 3738

contains only intended use. There are no structural requirements in the preamble and Lee meets all the requirements of the remainder of the claims.

In addition to this, as described above Lee clearly discloses an elastic member (20), which when inserted into a vessel will inherently absorb at least some fluid pressure from the passing fluid. Furthermore, when the device of Lee is used on the outside of a vessel, the increased pressure will also be inherently absorbed by the elastic member (20).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
